SECTION 1: OVERVIEW

1.0 NCTCOG OVERVIEW
The North Central Texas Council of Governments (hereafter NCTCOG) is a voluntary association of, by, and for local governments and was established to assist local governments in planning for common needs, cooperating for mutual benefit and coordinating for sound regional development.

NCTCOG serves a 16-county metropolitan region centered on the two urban centers of Dallas and Fort Worth. Currently the Council has 236 members, including 16 counties, 168 cities, 23 independent school districts, and 29 special districts. The area of the region is approximately 12,800 square miles, which is larger than nine states, and the population of the region is over 7.0 million, which is larger than 30 states.

1.2 PURPOSE
The NCTCOG Region includes the following 16 counties: Dallas, Tarrant, Collin, Denton, Rockwall, Kaufman, Wise, Johnson, Hood, Erath, Hunt, Navarro, Ellis, Somervell, Palo Pinto, and Parker, which cover approximately 12,800 square miles. As individual projects are defined these boundaries may be expanded or contracted at the sole discretion of NCTCOG.

The Emergency Preparedness Department of the NCTCOG coordinates with local, State and Federal agencies in an effort to establish systems and processes to prepare for, respond to, and recover from disruptive events. NCTCOG therefore seeks proposals for the development and implementation of a Disaster Recovery Plan for the North Central Texas region. NCTCOG will work with the selected contractor to establish a Recovery Framework that will subsequently be used to develop a regional Recovery Toolkit to meet the project deliverables contained within this solicitation document. Pricing and planning is further requested for the ability to host a Recovery Summit and Training Exercise.

The Disaster Recovery Plan (DRP) presently in place is based upon the Seattle model. Emergency Preparedness desires to mimic this effort in what will become the North Texas Model. The purpose of this request for proposal (RFP) is two-fold. The first purpose (Recovery Framework and Toolkit) is to receive proposals for the selection of a contractor/s to provide Professional Services and Data as to formulate the necessary planning, design, development, and coordination of a Disaster Recovery Plan Framework, Recovery Toolkit, Summit, and Workshop, or Disaster Recovery Plan curated for the North Central Texas Region.

The main Recovery Support Functions and components desired by this plan will focus on Infrastructure Systems, Housing, Health and Social Services, Community Planning and Capacity Building, and Natural and Cultural Resources.

The main recovery Core Capabilities will focus on Planning, Public Information and Warning, Operational Coordination, Economic Recovery and Health and Social Services.

The second purpose of this RFP (SHARE Proposal) is to receive proposals for the selection of a contractor/s to provide Implementation of the Recovery Toolkit as part of the SHARE program. Under the SHARE program, any public entity NATIONWIDE can use the SHARE contract and its selected Contractors and pricing to pursue their own projects. This offers a unique advertising advantage for Contractors to promote their services. The core components of the SHARE Proposal are the same as the Disaster Recovery Plan.

For those interested in responding to this RFP, please see Section 2.1 for a Scope of Services that details the required project components and Exhibit A for pricing submittal information.

This RFP does not constitute an actual contract for services. All submitted proposals will become the property of NCTCOG and will not be returned. NCTCOG will not be responsible for any costs incurred while responding to the RFP.

For proposal purposes, a comprehensive and detailed list of expectations can be found under Section 2: Specifications.

1.6 SHARE COOPERATIVE PROGRAM EXPLANATION
NCTCOG intends to make the contract resulting from this procurement available to other governmental entities through its SHARE cooperative purchasing program. Contractors realize substantial efficiencies through their ability to respond to a SHARE solicitation that will increase their sales opportunities, and reduce the need to repeatedly respond to public agency Requests for Proposals. From these efficiencies, Contractors pay an administrative fee to SHARE calculated as a percentage of sales processed through the SHARE contracts awarded and held by the Contractor. This administrative fee is not an added cost to SHARE participants. This administrative fee covers the costs of contract marketing and facilitation and offsets expenses incurred by SHARE.

1.7 CONTRACT MANAGEMENT AND REPORTING
The Contractor will be required to track and report to SHARE on activities relating to the Master Contract. The Contractor will be required to provide management reports to NCTCOG on a quarterly basis with the submission of the administrative fee outlined herein. Examples of management reports include, but are not limited to:
- Participating Entity’s name; pricing option chosen; total fee charged. NCTCOG and Contractor will agree to form and content of reports after award of contract.

1.8 ADMINISTRATIVE FEE
NCTCOG will utilize an administrative fee, in the form of a percent of cost that will apply to all contracts between awarded contractor and NCTCOG or participants resulting from this solicitation. The administrative fee will be remitted by the contractor to NCTCOG on a quarterly basis, along with required quarterly reporting. The remuneration fee for this program will be 2% on sales.

SECTION 2: SPECIFICATIONS

2.1 SCOPE OF WORK

This project will result in the creation of a regional framework for North Central Texas, based upon the Department of Homeland Security’s National Disaster Recovery Framework, State, Local (Urban and Rural) recovery documents, such as Playbooks/Checklists/Guides, Best Practices, After Action Review/Improvement Plan documents, which will allow Jurisdictional Emergency Operation Centers (EOC) to return to a healthy state following a disaster. An examples include: FEMA Hurricane AAR/IR and Governor Greg Abbott’s Report of the Governor’s Commission to Rebuild Texas “Eye the Storm”. The overall goal is that, through research and workshop, North Central Texas (NCT) will establish opportunities (working groups, committees, etc.) to foster positive relationships between local, state, and federal emergency management and other disciplines in an effort to establish systems and processes to prepare for, respond to, and recover from disruptive events.

NCTCOG seeks a firm with proven expertise in, and the ability to deliver, the following services:

**Deliverable 1: Disaster Recovery Plan Framework**

- Develop a detailed Disaster Recovery Plan Framework that outlines how to mitigate and/or respond to disruption to critical functions.
  - Identify universal critical recovery functions that are standard practices regardless of the size of the organization. Functions must also include specifics to the North Texas Region, interviews with local jurisdictions, private non-profit agencies, and/or other recovery resources are encouraged. Identify events that may occur during an incident that may compromise organization functions.
  - Through recovery planning, establish a standard acceptable recovery timeline of short term to long-term progression in the recovery phase. Example, the recovery continuum in the National Disaster Recovery Framework (Preparedness, Short-Term, Intermediate, and Long-Term recovery).
  - Partner with the Regional Emergency Management Working Group or other subcommittees to identify recommendations that local jurisdictions could assist and or support in all phases in the Recovery Support Functions and Core Capabilities.
    - Recovery Support Functions includes:
      - Infrastructure Systems
        - With an emphasis of water utilities
      - Housing
      - Health and Social Services
      - Community Planning and Capacity Building (CPCB)
      - Natural and Cultural Resources
    - Recovery Core Capabilities includes:
      - Planning

      - Operational Coordination
      - Economic Recovery
      - Health and Social Services

- Create a Recovery Framework summary for elected officials.
  - Should be in an understandable, easy to use and maintain, digital format.

[EH1]

- Research and identify speakers from affected areas to serve as subject matter experts at the workshop (Detailed in Phase 3).
Deliverable 2: Create a recovery toolkit with easily accessible materials that can be used in local organizations and with Elected Officials.

- Recovery toolkit will correlate with the newly developed Disaster Recovery Plan Framework for emergency managers to develop jurisdiction-specific plans for recovery:
  - Recovery toolkit materials must include (specifically for emergency managers) jurisdiction-specific plans for recovery:
    - Definition of recovery.
    - Identify best practices to help reduce recovery time. Recovery processes should be scalable and based on recovery demonstrated recovery needs. For example, diving deeper from the Disaster Recovery Plan Framework timeline, establish a standard acceptable recovery timeline playbook/checklist specific to Emergency Operation Centers (EOC) in the North Texas Region of short-term to long-term progression in the recovery phase.
    - Develop recovery checklists for each function and job aids to be used in an EOC.
    - Develop job aids on how to reach out and foster relationships with local stakeholders.
    - Provide materials in a digital format (thumb drive, website, CD) for workshop participants.

Deliverable 3: Regional Recovery Summit

- Create, coordinate, and conduct a Regional Recovery Summit for emergency management and recovery professionals to include:
  - Consult with representatives from Subject Matter Experts (SMEs), the Emergency Management Working Group (EMWG), NCTCOG EP staff, and other stakeholders, to identify potential functional and/or discipline-specific recovery speakers and topics.
  - Plan, develop, and deliver a single-day conference for no more than 250 attendees to include a presentation area, multiple break-out/collaboration areas, and an equipment display area.
  - NCTCOG EP Staff will locate and secure a venue that will accommodate the summit. EMWG leadership and NCTCOG EP Staff will identify a date for the summit during the month of July 2019.
  - Manage all aspects of conference delivery leading up to and the day of the event. Including but not limited to:

Deliverable 4: Exercise

- Create, coordinate, and conduct a Recovery exercise for emergency management and recovery professionals to implement the Disaster Recovery Plan and toolkit.
  - Discussion based exercise.

Deliverable 5: SHARE Cooperative Purchasing Program – Toolkit Implementation

It is the goal of the NCTCOG to make the implementation of the North Texas Disaster Recovery Plan Toolkit available as an ILA contract via the North Texas SHARE Cooperative Purchasing Program, for the benefit of all public entities that wish to utilize it.

Presently, entities among the NCTCOG region utilize a Disaster Recovery Plan that uses the Seattle model. However, the Seattle model considers recovery using the Recovery Support Functions (RSF) [as outlined in the National Disaster Recovery Framework (NDRF)] and develops questions regarding each RSF. Some entities may desire custom questions and/or separate Recovery Core Capabilities (RCC) and RSFs. The awarded Contractor/s will work with departments within SHARE Entities to answer these questions and formulate a framework for the implementation of the Disaster Recovery Toolkit for their own needs.
The main RSFs and RCCs of this plan may include any of the following:

i. **Recovery Support Functions (RSF) includes:**
   1. Infrastructure Systems
   2. Housing
   3. Health and Social Services
   4. Community Planning and Capacity Building (CPCB)
   5. Natural and Cultural Resources
   6. Disaster Recovery Centers

ii. **Recovery Core Capabilities (RCC) includes:**
   1. Planning
   2. Public Information and Warning
   3. Operational Coordination
   4. Economic Recovery
   5. Health and Social Services

- The selected Contractor will work with all departments within SHARE Entities to identify their recovery process as well as identifying interdependencies required to achieve a successful recovery. Concurrently, the Contractor will work with departments to identify business processes vital to recovery that may be altered or suspended to facility recovery. Contractor will also examine other recovery issues such as damage assessment, debris management, security and re-entry, in order to develop these issues into annexes to the Disaster Recovery Plan Toolkit; but each with standalone plans of their own right.

- The Contractor will further be able to make available any Recovery functions or services not anticipated by this RFP via the SHARE Cooperative Purchasing Program as a catalogue option. Contractor shall provide additional Recovery products and/or services as options, with 'List Less' or 'Cost Plus' percentages for pricing. A copy of services should be included with response.

- An example of what a desired Action Plan that SHARE Participants may submit is attached to this document as **Exhibit B**. No response is necessary for this item.

### 2.2 CONTRACT INTENT

NCTCOG intends to contract with one or more qualified Contractor(s) based upon the qualifications of the respondent and the categories of services it is able to provide. However, NCTCOG anticipates exploring any viable alternative for providing these services and may decide, after reviewing Proposals submitted, not to enter into any agreement.

The selected Proposer will enter into a one (1) year initial Contract for services with NCTCOG. At the end of the initial one (1) year contract, and at the discretion of NCTCOG, the Master Contract may be extended with four (4) one (1) year renewals. The total term of the Master Contract shall not exceed three (5) years. Any extension beyond the initial one (1) year period will be subject to NCTCOG approval.

Because the resulting contract(s) will be on an as needed basis, there will be no guarantee of any expenditure on any of the resulting Master Contract(s).
