Federal Engineering (FE) has been providing public safety consulting services for over 36 years. With FE, SHARE participants can rely on one firm for virtually all your consulting needs in E9-1-1 and Next Generation 9-1-1, Computer Aided Dispatch (CAD), Records Management Systems (RMS), mobile data, emergency communication center (ECC) operations and consolidation studies, as well as land mobile radio, broadband data, and emerging long-term evolution (LTE) and FirstNet communications.

Mission Critical Partners is committed to delivering innovative solutions that help clients enhance and evolve their public safety communications systems and operations. Their design, planning, implementation and lifecycle management expertise spans all aspects of the emergency communications ecosystem with experience covering everything from radio and broadband, networks and 911, to facilities and operations.
